

THE
PINES
Modern Steakhouse

In an effort to secure Yaamava's position as the leading entertainment destination in Southern California, in 2003 our tribe embarked on an amenity enhancement project that eventually included the introduction of the Pines Modern Steakhouse.

As the enterprise continued to increase its offerings, so did the Pines. In 2021 the Pines Steakhouse was reborn. As always, the Pines Steakhouse continues to offer a first-in-class luxury experience that is one-of-a-kind in Southern California.

Please allow our story-tellers to illuminate your experience with tales of the dining space and guide your journey into our menu offerings.

Oysters were a delicacy for the wealthy class during the Greek and Roman empires. Oysters were so important to the Greeks that they became the first to cultivate oysters. Oysters were so important, that the shells were even used to cast ballots in the voting process. Besides voting, the Greek myths show how important oysters were – Aphrodite, Goddess of Beauty and Love, was born from the sea foam in an oyster. Hence, the idea that the oyster is an aphrodisiac came from the origin of Aphrodite.

Located in California's Bay Area, the California Caviar Company is the only vertically integrated caviar company in the United States. This sustainable farm has been recognized for applying a practice known as the 'Köhler Process,' which uses the first ever techniques for caviar extraction without harming the Sturgeon.

The Chef's Garden supplies The Pines Modern Steakhouse with seasonally rotating artisanal produce. The operators of this Akron, Ohio based farm aim to cultivate nutritionally dense produce by applying traditional farming philosophies to optimize soil quality.

Snake River Farms originated in American Falls, Idaho where founder, Roberto Rebholtz Sr. pioneered the breeding of American cattle with Wagyu cattle to produce richer flavor and marbled beef. SRF closely monitors their farms to ensure that their cattle are sustainably farmed and humanely processed.

Jidori Chicken – also known as the 'Kobe Beef' of poultry, originated in Los Angeles and is now sustainably raised in local small California farms. This humanely processed bird is free-range and their diet consists of natural grains without meat by-products or additives.

Our white and dark chocolate is sourced from Callebaut of Belgium. This chocolate producer sources their cacao beans from sustainable farms in West Africa. Each bag of chocolate is marked with a unique code where one can trace the origin of the exact farm from which the cacao was grown and produced. Moreover, Callebaut reinvests a portion of their earnings toward sustainable cacao cultivation and community programs in West Africa.
